

ALAMEDA PEDIATRIC DENTISTRY IS MOVING TO THE MARINA VILLAGE BUSINESS DISTRICT

-For Immediate Release-

Alameda, Calif., February 1, 2017 – After 40 years at its original location at South Shore Center, Alameda Pediatric Dentistry (APD) is moving to a new office at 1105 Atlantic Avenue, Suite 101, in Alameda’s Marina Village Business District. The upcoming move, which will take place the week of February 19, is a monumental step for both the practice and the 10,000 families it serves.

APD’s Dr. Sharine Thenard explains, “A lot of kids have grown up with their oral health being taken care of in this office. We have been in this space for so long that generations of kids remember being cared for here.”

As the only pediatric dental office on the island that offers onsite orthodontics and a state-of-the-art sedation center, Alameda Pediatric Dentistry serves Alamedans from Bay Farm to the West End, as well as hundreds of families who drive from as far as Oakland, San Leandro, and Fremont seeking personal, reliable dental care for their kids. Now, the practice is poised to continue its legacy of offering friendly, professional service in a bigger, brighter facility that is twice the size of the South Shore location, at 9,500 square feet.

APD Operations Manager Mari Cyphers says, “Over the years, our doctors have strived to become clinical experts in their specialty. The doctors have all completed advanced training in sedation dentistry to ensure that we are prepped to keep our kids safe during even the most difficult of cases.”

The new office has been custom built to accommodate specific community requests, including:

- Multiple family rooms where siblings can be treated together.
- Semi-private treatment areas.
- A new teen waiting room in addition to the general waiting room.
- A fun and classy island theme.

In the end, the move is all about growing as an Alameda institution, where we strive to improve kids’ oral health and help families feel secure knowing their young ones are in the best hands.

About the Marina Village Business District

The Marina Village Business District is a few short minutes from three shopping districts: Alameda Landing, a 72-acre mixed-use destination, the Marina Village Shopping Center, and the recently revitalized Webster Street. Families wishing to relax nearby before or after their dental appointments have ample parks to choose from, including Shoreline Park and the soon-to-come Jean Sweeney Open Space Preserve.

About Alameda Pediatric Dentistry and Pleasanton Pediatric Dentistry

Alameda Pediatric Dentistry (Alameda and Oakland, CA), and Pleasanton Pediatric Dentistry (Pleasanton, CA), in the San Francisco Bay Area specialize in oral health for infants, adolescents, and special needs children.

Pediatric dentists on staff undergo several years of additional training beyond the four years of dental school so that they are uniquely qualified to treat children, including those with special

needs. Not only are they on the faculty at UC San Francisco and University of the Pacific dental schools but they also have hospital privileges at UCSF Benioff Children's Hospital Oakland and Kaiser Hospital in Oakland.

Alameda Pediatric Dentistry practices generational dentistry. Their earliest patients have come back to work for the practice or to bring kids of their own to be seen here. This dental practice is proud to play an integral role in the fabric of the Alameda community.
